✉ lianzhuwork@gmail.com 📱 (971) 269-4293 ❖ Hillsboro, OR

EDUCATION

Portland State University

Expected Graduation: June 2027

Bachelor's of Science in Computer Science

GPA: 3.96/4.0

- **Relevant Coursework:** Intro to Computer Science, Calculus II, Linear Algebra, Discrete Structures

PROJECTS

Roblox Group Manager Service

June 2024 - Present

- Worked with a trio to build a ROBLOX group management service, handling 300+ members
- Created a serverless Python API, launched to DigitalOcean, ensuring scalable and reliable backend operations
- Implemented a Python Discord bot for seamless backend interaction and user engagement
- Enhanced Discord data visualization using the PIL library and managed data with SQLite3

Barbell Path Tracker

February 2022 - June 2022

- Experienced the software development life cycle through a highschool senior project by planning, designing, implementing and testing a vision recognition program
- Developed a Python script using OpenCV to track the path of a barbell and calculate the deviation from the center of the path
- Presented at the Hillsboro Airshow, with a goal of showcasing the project itself and the process of creation

Task Manager

March 2023 - July 2023

- Implemented a task manager application in C++ using a linked list data structure, with functionalities such as adding, deleting, and updating tasks, and a user-friendly interface

WORK EXPERIENCE

City of Hillsboro Shute Park Aquatic & Recreation Center

Mar. 2023 – Present
